*News About Home of Guiding Hands, Advocates for People with Developmental Disabilities*

## *Mark R. Klaus, Executive Director*

Hello!

As your new Executive Director, I'm happy to share good news with you – about the past fiscal year and what the future holds for HGH.

Unlike many other nonprofit organizations, we were able to not only survive the continuing recession, but to finish the year with a surplus. That's due to the hard work of what I'm learning is an amazing staff, and the continued dedication of so many involved donors. How did it happen? A new food purchasing program, which decentralized the process and gave each home the ability to buy its own groceries, saved us \$88,000. And *The Road Home* Matching Gifts campaign, which so many of you generously supported, raised over \$134,000. In spite of ongoing concerns about state budget cuts, we continued to offer the highest quality services and support that have been a HGH hallmark for more than 40 years. We were even able to complete an ambitious schedule of renovation projects, including the complete remodel of the kitchens at LRW and Pine Houses. At

this time, we do not know how the state budget will impact us. But we do know that we will not waiver in our commitment to the men, women and children who depend on us every day of the year.

As we begin a new fiscal year, I want to assure you that I am dedicated to complete accountability and efficiency – I want to make sure that each donor dollar is spent wisely, helping to create the quality of life that we all strive for in our own homes. You are always welcome to come on a home tour and see for yourself the very special everyday moments that make our programs unique. In the past month since joining the HGH team, I have had the opportunity to meet many volunteers, staff and members of both the Board of Directors and the Board of Governors. I am impressed by their enthusiasm and professionalism and I look forward to working with them in the future to further enhance the quality of life and to provide quality services, training and advocacy for people with disabilities, their families, and others in our community.

If you have any questions, my door is always open and I would appreciate the opportunity to meet with you. Please stop by and say hello.

## *Evans Respite Family*

Hello,

I'd like to share a recent story about how much HGH respite means to us. This summer we had the opportunity to leave our twenty-eight year old daughter, Whitney with a HGH respite care worker while we flew out of state for our grandchildren's birthdays! What is truly amazing about this is that we had NEVER left Whitney overnight!

Mark and I simply showed up at our older daughter's door and COMPLETELY surprised her, our son-in-law and our two adorable little grandchildren. They knew that Whitney is now unable to fly, so you can imagine how SHOCKED they were that we had been brave enough to fly over a thousand miles without her! It meant so much to all of them that we were able to be there for our granddaughter's FIRST birthday on August 13th and our grandson's fourth birthday on the 12th. This overnight trip wouldn't have been possible if we hadn't had complete trust in our HGH respite care provider. Whitney has Angelman Syndrome and her needs are great. I am happy to announce that Whitney was well cared for while we were gone, and we were able to give undivided attention to our older daughter and her family. Taking that brief trip has assured us that we ARE able to leave Whitney overnight in case of an emergency and we may even get away for a restful weekend someday soon!!

Thank you! Thank you!!

Alice and Mark Evans

# Wrapping Up "The Road Home"

It began as an idea and an inspiration. The idea was to reach out to new and existing HGH donors with a matching gifts campaign. The inspiration came from William Shakespeare, who said "People are usually happiest at home." So in November 2009, The Road Home – the Campaign to Preserve Our Future, was created to close the gap between state reimbursements and the true cost of providing the highest level of services and support for children and adults with developmental disabilities. Early support for the campaign came in the form of leadership gifts to The Road Home Fund from board and family members, long-time supporters and even new donors who recognized that their generosity would encourage others to participate. Once the second half of the campaign began in spring 2010, all donations were "matched" by those initial contributions to The Road Home Fund. In addition to traditional methods of reaching supporters, HGH intensified its online efforts, using email and the HGH Facebook page to keep everyone up to date on the progress of the campaign. Individual donors recruited friends and found creative ways to contribute, from hosting small groups in their homes to soliciting donations for each mile of a bike ride through the hill country of Texas. Employees joined in, and one of the most innovative ideas – a program to recycle old cell phones and printer ink cartridges – continues to this day. When the campaign concluded this past June, a total of \$134,166 was raised, the largest single fund-raising effort of the year. We are extremely grateful to all who worked so hard and gave so generously to make The Road Home a success.

Jim O'Grady, Board Vice-President, biked across Texas while raising funds for the Road Home Matching Fund Campaign.
