Residential: Throughout our 31 homes, we provide services to children, adolescents, and adults with intellectual and developmental disabilities. Individuals live in comfortable, friendly homes with varying levels of training and 24-hour care.

The Community Living Program: We support and encourage the greatest level of independence for individuals living in their own homes. One-on-one coaching is provided by a trained counselor in order to maximize their self-sufficiency.

The Adult Family Home Agency: The AFHA program is ideal for individuals transitioning from their existing setting who now choose to live with a family. The individual is integrated into family life and experiences the everyday joys of a home.

Early Childhood Development: A dual purpose program which provides therapeutic and educational early intervention to young children ages birth to three years who are at risk of delay or have been diagnosed with a developmental disability.

Respite: We provide in-home support to enable a family and/or caregiver to feel comfortable taking a break from the intensive supervision and care of their family member.

Transportation: We offer specialized transportation services for individuals with developmental disabilities many of whom experience significant physical and/or medical challenges.

Additional services include Counseling and Family Support, and Life Planning.
